

# DEVELOPMENT OF "NEUROTIC SYMPTOMS"

**Chronic "neurotic symptoms"**

**Evasion/Excuses/"Side Shows"/Safe-guarding  
in coping with Life Tasks**

**Grasp on reality retained  
Common sense not totally discarded  
"Yes - but"/hesitating**

**Intensified emotional state  
Hypersensitivity and impatience**

**Dependency on others  
Tendency to mistrust & manipulate others  
Misbehavior  
Self-centeredness  
Lack of cooperation/contact ability  
Loss of confidence/self-esteem  
Discouragement**

**Increased insecurity feelings  
Feelings of inadequacy/inferority  
Inadequate preparation  
for communal feeling**
